- Proficient in reading and working with technical documentation

Work Experience

2011 – 2025 **Gas Station Operator**
LLC «AVIAS»

13 years of experience as a gas station operator (cashier-salesperson), developing communication skills, conflict resolution, and discipline. In my free time, I developed a web application to automate routine gas station processes, improving staff efficiency.

Goal

Looking for a full-time position as a web developer in an engaging project where I can apply my knowledge, improve my skills, and contribute to the team's success.
